---

We don't just sell computers; we provide solutions - and have been doing it since 1988. Sounds simple enough, but it's what sets us apart from others. By trading, building and selling computer

products, quality refurbished to brand new systems as well as parts and accessories and state of the art technical service on site, in home and in business-to-business environments, we make sensible, powerful solutions that meet customer needs.

Let us give you a free needs analysis today! In this review we will address such issues as data backup procedures, network security, virus protection, e-mail and messaging systems, Internet access, Security camera's, etc. At the conclusion of the audit we will provide you with a report of our findings and recommendations. The audit is offered absolutely free and without obligation. To schedule a complementary audit of your computer systems, please call **Grunski Technologies, Inc.** at **(904) 998-7555**. We look forward to meeting you!

- **The best friendly personal and professional customer service FREE.**
